Profile

Courteous, enthusiastic and Resourceful Front-End Developer with 2.7+ years of experience in designing and developing user interfaces, user experience, and testing. Skilled at utilizing React, Angular, HTML, and CSS to provide effective web applications. Proficient in using GitHub for code integration.

Employment History

Senior Software Developer, Divami Design Labs, Hyderabad

AUGUST 2020 — FEBRUARY 2023

Projects:

1. Synopsys (Angular) - (May 10, 2022 - Present)

- Successfully led a team of 5 member where we successfully completed project on time
- Efficiently did the code set up in the project, which helped us in later stages when we added more components and feature based on last minute client requirement
- Used Agile methods and process for coordination among team members like taking Scrum meetings
- Maintained client-relationship
- Helped in reviewing PR's, and merged them into the code base.

2. EXL (React)- (Sep 4, 2021 - Mar 16,2022)

- Created Re-usable component for code re-usability
- Used useReducer, useContext(Hooks) for State Management
- Used Material UI library for pre-built components and designs.
- Created Custom Hooks for handling server-side pagination, sorting, and Form Component.

3. Blueyonder (React) - (May 10, 2020 - Sep 3, 2021)

- Created Re-usable component for code re-usability
- Used useReducer, useContext(Hooks) for Global State Management.
- Handled String Internationalization(i18n).
- Used useState for state management and used in built hooks from React Library

Additional Activities -

- **Helped in training** Interns on HTML, CSS, and JS and Angular JS concepts.
- Regularly **took interviews** for hiring Junior React Developers.
- Won **Coding Hackathon** conducted by Divami Design Labs
